TRAFFIC IN MONKSDENE/ MONTROSE GARDENS AND THE BOTTOM OF WAVERLEY AVENUE

We are very conscious of the impact of the trial closure in Grennell Road on traffic levels in Woodend, Monksdene/ Montrose Gardens, and the bottom of Waverley Avenue.

There is no doubt that traffic flows have changed during the period of the trial – which is due to end next March. There is a generally high volume of traffic throughout the day. Traffic monitors were put in place in October, and will be back again in January.

Some residents in Woodend, Greenhill and Aultone Way have asked for a temporary closure of Woodend at the junction with All Saints Road, as part of the current trial. We are concerned that this could divert cut-through traffic to Monksdene Gardens. We are aware that Monksdene/ Montrose and Waverley already take a lot of cut-through traffic, and this is especially a problem at the bottom of Waverley Avenue, where parking makes two-way traffic difficult.

Council officers have suggested that if the temporary closure of Woodend were to go ahead, we should consider a No Left Turn out of Monksdene into All Saints, and a No Right turn into Monksdene. Before progressing to a trial on this, we would like to hear what you think. Although it would impact on travel options for you, it could drastically reduce cut-through traffic in your roads.

Before this is progressed much further we would welcome your views (see over). The aim would be to implement as part of the current trial so the effect could be monitored early in the New Year, and a decision taken in the spring on the whole scheme.

If you would like to join an internet meeting to discuss these issues please let us know (see over).

Ruth, Marlene and Steve
